How you keep the score in tennis:

Basically, tennis scoring proceeds from 0 to 15 to 30 to 40 to game.

A score of zero is "love." If the server makes the point, the score is "15-love."

When the score is equal, for example 40-40, you can also say "40-all,". In tennis individual parts are called games. To win a set you need to win six games. After two sets you win the match. So when Wyke says "game, set, match" it means that the game is over (for Milo).
